Love it!!!By CustomerOlivia Hawthorne she is my favorite author!!! This series was good hot and steamy it's got a little of get all!!0 of 0 people found the following review helpful. Greatest Short Series EverBy Jamaral would definitely call myself a fan of this author, Olivia Hawthorne, who really knows how to write a threesome. I loved the interaction between the three characters, Liam, Connor, and Emma. I absolutely loved that Emma was able to tell the two apart. This has been a great short series and I can't wait for the next one. This is by far the best short story that deals with twins and a one girl love affair.

This is Book Four of a Five Book series. I was sick of living a lie. Emma Jacobson was tired of living under her mother's strict rules. For two years, she avoided her gorgeous twin stepbrothers, Connor and Liam, because she knew they were trouble. Emma finally left for college and wanted to shed the good girl persona she'd been forced to live with her entire life. On her first night out, she discovered something about her stepbrothers that would forever change her world. Will Emma be able to resist her dangerous, but gorgeous, stepbrothers? Will Connor and Liam be able to help Emma get rid of the good girl image she'd always been forced to carry?
